Shared Services Center Governance Charter

1 Purpose

This charter defines the membership, roles, responsibilities, and administrative guidelines of Virginia's Community Colleges System (VCCS) Shared Services Center (SSC) governance for the management and success of the VCCS SSC. The SSC will contain a collection of services, programs, projects, and operations managed as a group to achieve the strategic objectives of the VCCS.

2 Overview of the Governance for SSC at VCCS

A solid culture of strategic planning and tactical operations is essential for the successful implementation and execution of the Shared Services Center. The organization's goals and objectives must be defined to establish the management oversight, decision-making authority, and processes to evaluate the performance of the SSC. - The SSC Executive Council will set the strategic direction of the SSC to ensure alignment with the priorities and mission of the VCCS and hold the SSC accountable for its performance.
- The Management Council will ensure that the SSC is performing to expectations, continuously improving processes, and offering the services that support the VCCS mission and goals.
- The Process Councils will bring subject-matter expertise and process knowledge across varied colleges to promote smarter, faster, and more cost-effective processes within the totality of the VCCS.

3 Goal of the Councils

The goals of the Governance Councils are to define the nature and extent of the Shared Services initiatives, approve funding to provide maximum value toward the accomplishment of the VCCS's strategic mission goals and objectives, monitor the performance of the center, and create a culture of continuous improvement. The major activities of each goal are:

- Funding – Recommend, review and approve any funding requirements, including but not limited to; staffing, facilities, technology, and assessing benefit realization.
- Performance Monitoring – Review Service Level Agreement (SLA) adherence and performance metrics; adjust the SLA and metrics; review customer feedback and surveys and action plans to address issues.
