**Additional Information:**

- Part-time employees are restricted to 1500 work hours in a 12-month period. This averages to approximately **29** hours per week (Friday – Thursday).
- At the end of the pay period, employees should review their entire timesheet for possible changes/corrections including punch times, accurate leave requests and reported hours. Once this final re-examination of the timesheet is completed, then the employee is to click the **Submit** button. This allows the final timesheet to be viewed by the manager for approval using the Approve Payable Time function.
  - If you see an **exception**  icon next to a particular day, determine the cause of the issue and take appropriate action to make necessary corrections if needed. Once the corrections have been made, the automated [Time Administration](#) process should eliminate the exception. In the event that exceptions are not eliminated by correcting the timesheet, contact your manager for resolution.
- The following information will be displayed below the timesheet (tab format):

**Reported Time Status**

**Reported Time Status**

This tab will allow you to see the reported status, TRC code, description and any comments for the hours worked based on the timesheet period. Clicking this link will allow you to see the weekly summary of the work hours.

**Summary**

This tab will allow you to see the weekly summary of the timesheet period.

**Exceptions**

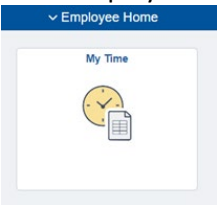

This tab displays any exceptions that occurred within the timesheet period and the associated recommended actions.

**Payable Time**

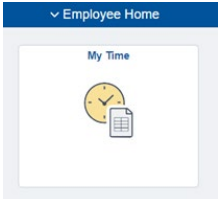

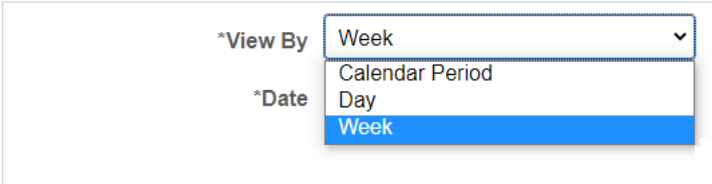

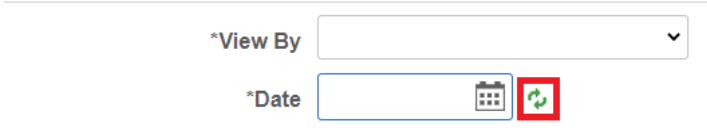

This tab displays any existing payable time within the date range specified for this timesheet period.

## Chancellor's Affordable Care Act (ACA) Directive and Manpower Control Program

The chancellor has issued limits on the amount part-time employees can work in any position or a combination of positions within the VCCS as a whole (at any two or more colleges). The directive applies to all part-time employees and adjunct faculty regardless of the funding source for the employee's pay. There are no exceptions to the limits.

- The year measurement period for all part-time employees is May 1<sup>st</sup> – April 30<sup>th</sup> for each year.
- Wage employees shall not work more than 29 hours per week (Friday – Thursday), averaged over a year.
- If you also are an adjunct, in addition to your part-time/wage position, please consult with your school dean for additional guidance on the calculation of work hours.

Managers and employees must ensure, through scheduling and approving of time records, that this requirement is met.

The Manpower Control Program is the law of the Commonwealth, and the Chancellor's Directive sets forth the administration and compliance within this law.

## Appendix A: Time Administration Information

- Time and Labor Exceptions – **Background Information:**

The **Time Administration** process (Time Admin) is an automatic process which runs according to the schedule for each agency on the [Automated Time Administration schedule](#). Additionally, the Time Admin process accepts the changes on the timesheets made by the employee. Each time the employee enters punch time entries or submits changes to those punch time entries on the timesheet, which deviate from the employee's "predefined work schedule", it will create an exception. Also, if the manager has cleared the exceptions, and the employee submits changes to their timesheet after the manager has cleared exceptions, it may create new exceptions.

The results of Time Administration are either exceptions or payable time that can be approved by the Manager. ***It is important that the manager resolve all exceptions before approving payable time.*** In the process of resolving or clearing the exceptions, the manager is to check the employee's timesheet and absence requests for accuracy. Communication with the employee is essential to correcting punch and elapsed time entries and absence requests. It is the manager's responsibility to ensure that the final timesheet is correct before approving payable time.

Moreover, a list of the exceptions is listed in [Appendix B](#).
